

17TH Annual Southland Technology Conference

October 14th & 15th @ Long Beach Hilton

What is the Southland Technology Conference (SoTeC)?

The Southland Technology Conference is professional conference that targets technology professionals in Southern California. Attendees primarily come from sponsoring organizations such as:

- Association of IT Professionals – (AITP) Los Angeles
- PMI Chapters– Los Angeles & Orange County
- IIBA –Los Angeles & Orange County
- itSMF (IT Service Management Forum)
- Southern California Quality Assurance Association Chapters (SCQAA) –San Fernando Valley, Orange County, and Quality Assurance International (QAI)

This conference provides opportunities to develop industry knowledge, training, skills and leadership.

What sets SoTeC apart from most other conferences is that it is organized by the same technology professionals who will benefit from attending the conference.

The Professional Tracks- five tracks & seven sessions

- Project Management/ Business Analysis
- Quality Assurance/ ITIL
- Emerging Technologies
- Personal Development
- Alliance Partners

What other Features?

- Four industry leading keynote speakers, three panels and 50 speakers
- Job Fair and Resume Review
 - Including hiring companies and leading staffing firms
- Alliance Partner Showcase
- MANY Networking Opportunities
 - In between sessions, at lunch and breaks
 - Friday Night Meetup
 - Friday Night Greek Dinner
 - Structured Networking Session Saturday Afternoon
- SoTeC Inspiration Award – recognizing industry members giving to the community

2016

17TH Annual Southland Technology Conference

October 14th & 15th @ Long Beach Hilton

What's in it for my organization and me?

The Organization gets insider knowledge that will help individuals demonstrate value to their organization such as managing time, stakeholder expectations, and ensuring timely results.

Participants will focus on building intrapersonal skills, access and interpreting information for your environment to successfully manage your project, program, or portfolio, regardless to industry, geography and discipline. In addition, participants are eligible for certification credits demonstrating their knowledge.
